

Company & Concept

- “Krishnatech”- Consulting and Engineering Services
- *Protecting lives and assets starts with smart engineering*
- *Designing Services- “Outsourced & Simplified.”*
- “ESO”- “Engineering Services Outsourcing Company”

The Problem

- Many consultants and contractors lack in-house designing resources.
- Hiring full-time engineers is expensive and time-consuming.
- Compliance with NBC, IS, NFPA, OISD & FM codes requires specialized expertise.
- Deadlines are often tight; flexibility is essential.

Our Solution

- Concepting, Consulting and Costing
- We offer on-demand, outsourced fire system design consulting.
- Complete Fire Protection Designing delivered remotely.
- Expert in National and International Fire Safety Codes.
- State wise AHJ's Local requirement Compliances.
- White-label service: You retain client-facing control.

Our Services

- Fire Sprinkler and Hydrant Systems
- Foam – Low, medium and high expansion and HVW & MVW Spray Systems
- Water Curtain Deluge/Mulsifyer Systems
- Pump Selection and Water tank capacity calculations
- Hydraulic Analysis and Orifice Plate calculations
- Fire Alarm & Detection Systems
- Gas Suppression Systems (panel and total)
- As-Built, GFC, and IFC Drawings
- Bill of Quantities (BOQ) and Technical Documentation
- Cost Estimation and Procurement Assistance
- Erection and Commissioning Supervision
- Pre bid and post bid support for Tendering of Design and build projects.

Other Services

- System Design Review and GAP - Auditing of Existing system as per Latest codes and standards
- Static and Seismic Support Designing and cost optimization of support system
- Cost optimization through hydraulic designing of system and right selection of MOC of products.
- Servicing of existing equipment's like Deluge valve, DVLCP, Automation of fire pump room, checking system Healthiness and functionality.
- Compressed Air system.
- Plumbing/ PHE system designing- Water demand/ water balance calculation, Rain water, Sewage/ Drainage, Water supply, STP & WTP calculations and Selection etc.
- Budget preparation with Quotation Support
- Value Engineering
- Getting Third party approvals

Workflow / How It Works

- Share project inputs (drawings, specs, requirements)
- We design and develop DBR+CAD drawings + documents
- You review and provide feedback (if any)
- We finalize and deliver the complete package

Why Choose Us?

- 25+ years of experience in Fire Protection field
- Well-versed in NBC, NFPA, OISD and IS codes
- Cost-effective and scalable for all project sizes
- Fast turnaround and deadline-friendly
- 100% confidential and professional
- Detailing to the level of Contracting at Consulting time to minimize the costs and maximize profits.

Our Clients

- PSU's
- MEP Consultants
- Fire Protection Contractors
- MEP/EPC & Turnkey Project Companies
- Architects & Interior Designers
